future.

ADMINISTRATIVE - INTERNAL USE ONLY

survey, C/ROD/OP clearly is anxious to have it carried out in the near

ADMINISTRATIVE - INTERNAL USE ONLY

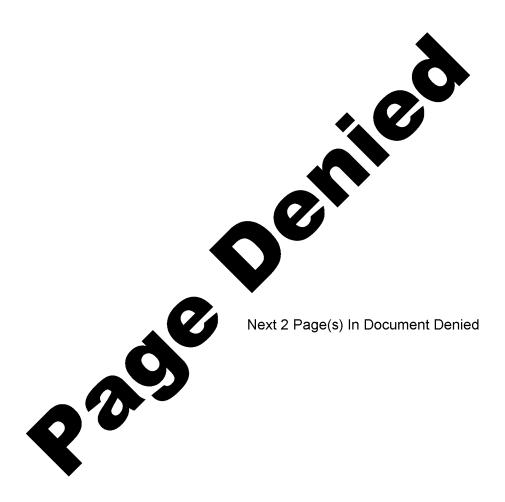

B. SIGNIFICANT EVENTS AND ITEMS OF INTEREST

- 1. Meeting on CIA Information Act's Designated Files. At the request of the HPSCI Staff, the Director of Information Services (D/OIS) chaired a meeting with representatives from the Staff to discuss the DCI's designation of certain Office of Security (OS) files as exempt from the FOIA. In attendance were the Director of Security and task force members from OIS, OGC, and the Office of Legislative Liaision (OLL). The meeting went well. We now have learned that the Chairman of HPSCI has written to the DCI interposing no objections to implementing the DCI's designation. We have yet to hear from the Senate Select Committee on Intelligence.
- 2. Workload Reduction in RPD. During this reporting period, the Regulatory Policy Division (RPD) accomplished one of it long-standing objectives by bringing its workload below the 100 job level. The current workload is 97 jobs. RPD achieved this goal by speeding up coordination and publication of some issuances and, in part, by canceling jobs of initiating components that were not showing sufficient progress toward completion. That is the good news; unfortunately, as RPD's objective to update regulations on a three-year cycle continues and as new drafts of issuances are received to replace those that were canceled, the workload is expected to climb beyond the 100 mark once more.
- 3. Forms Management. The Agency's Forms Officer (AFO) from the Information Resources Management Division (IRMD) met with representatives from Supply Division and Printing and Photography Division (P&PD), Office of Logistics, to discuss problems relating to forms. Recently P&PD forwarded the wrong print plates to the Government Printing Office (GPO) for the overprinting of Forms 610 and 615 and the subsequent printing of this material at a cost of \$6,000. The AFO suggested that P&PD send all overprint plates back to the requesting office for storage to prevent this from happening again. P&PD was agreeable to this procedure.

Work in Progress X1 X1 X1 X1 X2 X1 X2 X3 X4 X5 X6 X6 X6 X6 X6 X7 X7 X8 X8 X8 X8 X8 X8 X8 X8		MEMORANDUM FOR:	Director of Information Services
Nanagement Division, 16-22 January 1985 1. Work in Progress X1 b. OIS Survey. Information handling procedures and records management practices. And Chief, ICB, briefed the Director and Deputy Director of OIS on their findings and initial recommendations. The survey team will now analyse the data collected and prepare a formal report for the D/OIS. In the interim, the team members will brief OIS division chiefs on their survey results and solicit their reaction to the proposed recommendations. 2. Significant Events and Activities X1 a. Forms Management. Information Management Branch, met with representatives from Supply Division and Printing an Photography Division (PEPD), Office of Logistics, to discuss recent problems relating to forms. The primary problem discussed was the recent forwarding of the wrong plates to the Government Printing of this material at a cost of \$6,000. None of the 610s and only half of the 615s printed are usable, so an additional printing is necessary. Since the stock levels of both are currently below the replenishment level, PEPD agreed to print them in-house.	X1	FROM:	Chief, Information Resources Management Division
b. OIS Survey. ICB, completed their survey of OIS information handling procedures and records management practices. All Chief, ICB, briefed the Director and Deputy Director of OIS on their findings and initial recommendations. The survey team will now analyze the data collected and prepare a formal report for the D/OIS. In the interim, the team members will brief OIS division chiefs on their survey results and solicit their reaction to the proposed recommendations. 2. Significant Events and Activities A. 22 January 1985

	MEMORANDUM FOR: Director of Information Services
STAT	FROM: Chief, Regulatory Policy Division
	SUBJECT: Regulatory Policy Division Activities - 16 January through 22 January 1985
	1. RPD, in reducing its current workload to 97 jobs, has accomplished
	one of its long-standing objectives of bringing the workload to a level
	below 100 jobs. This resulted, in part, from speeding up coordination and
	publication of some issuances and, in part, from cancelling jobs of
	initiating components that were not showing sufficient progress and
	movement. As RPD's objective to update regulations on a three-year cycle
	continues, and new drafts of issuances are received to replace those that
	were cancelled, the workload again is expected to climb beyond the 100
STAT	mark.
	2. During the week, RPD facilitated the publication of an employee
	bulletin, prepared and signed by the DCI, discussing the preparation of
	National Intelligence Estimates and Other Intelligence Products. Among
	other noteworthy items, RPD received and edited a Headquarters Notice
	dealing with Official Transportation from Home to Work. It provides
	information and Government policy regarding such transportation and its
STAT	application to Agency employees.
	3. RPD forwarded to OF for action responses received from OL and DS&T
STAT	regarding the second drafts of the proposed revisions of
